Deb/Andrew

Attached are revisions based on Doug's comments. Doug has some pretty extensive rewrites for Silver Bow which Joe needs to run past the RPM. We should have that one for you this afternoon. As far as Doug's google map request with stopping points – not so easy. For the flats and RMA it becomes a scale issue as the sites are very large (RMA lots of features already on the map attached; we couldn't find anything better for the flats beyond what we offered earlier). Let us know if the attached map will work. Rob has a big poster size map for RMA and before/after large photos for the Flats which he plans to bring on the tours.

Let us know if Doug/you have more questions, need more info. Thanks.

Sandy
